With League of Legends: Wild Rift legend LoL comes to Android devices. Wild Rift is an Android-adapted version of the fantastic war game PvP League of Legends. League of Legends is a team-based game, as you know. Each team invades exciting and fantastic battles to invade the territory of their opponents. Of course, those who enter enemy territory win the battle. League of Legends: Wild Rift has almost all of LoL's classic features. These include a championship for talent and a winning amount of money. Because that's how you can develop the abilities of each warrior character in the game and more powerfully participate in the battle. The main difference between the Android version of LoL and the computer version is that it manifests itself in a war zone. In the computer version, the battles take place on the Magic Valley map, while the mobile version of League of Legends takes place on the Wild Valley map. The peculiarity of the Wild Valley map is that LoL was developed based on old maps. This will allow older players to get used to the mobile version. Combining moba and PvP style with excellent editing, League of Legends: Wild Rift is a very attractive production for fans of real-time war games. Just download and install the League of Legends: Wild Rift APK file for free to experience the excitement of LoL on your Android phone. Good games.
